

LAWN REVIVER

A premium grade lawn reviver for pre-plant and topdress.

PRODUCT DESCRIPTION

After a long period of winter dormancy, use Baileys Lawn Reviver to improve your lawns visual appearance within days. The organic structure works through the lawn's profile to activate microbial action and stimulate earthworm activity, promoting healthy growth. Water retention is increased, water run-off and evaporation are reduced and disease resistance increased.

BENEFITS

- ✓ Western Australian designed and manufactured product.
- ✓ Organic structure improves your soil structure and fertility and stimulated microbial activity.
- ✓ Disease resistance increased.
- ✓ Contains Grosorb wetting agent to maximize water use and fertiliser delivery.
- ✓ Manufactured to Australian Standards Mark 4454.
- ✓ Smart Approved and Waterwise Approved product.

PRODUCT ACCREDITATIONS

- Made to Australian Standards Mark 4454
- Smart Approved Watermark
- Waterwise Approved Product

DIRECTIONS FOR USE:

Pre-plant:

Prepare the area for lawn planting by removing sticks and stones and coagulated soil. Arrange your contours as desired then add Baileys Lawn Reviver to the topsoil at 100m-150mm thick. Work into the topsoil then plant out seeds or stolons.

Ideal preparation for roll-on lawn.

Use Baileys Energy Turf Lawn food as directed to promote early growth. Water well.

As Top Dress:

After mowing, vertimowing or scarifying, spread Baileys Lawn Reviver evenly over the surface of the lawn to a thickness of 5-10mm. Work into the lawn using the back of a rake or sand spreader. Water well.

SIZES AVAILABLE:

30lt bags, 1m³ bulka bags, bulk
