

BAILEYS

SURE GREEN RANGE

Baileys **SURE GREEN** Range includes a combination of readily available and 10 - 12 week duration slow release fertilisers individually designed for every stage of professional turf maintenance.

For use on sports grounds and golf course fairways.

SURE GREEN HIGH K

12.1%N, 2%P, 16.7%K, 10.9%S, 1.4%Ca, 1.2%Mg

100% readily available macro and trace elements, ideal for quick response through the growing season.

The phosphorous and potassium content makes it ideal for use coming out of winter dormancy or at renovation to encourage strong root development. Contains the major elements required for plant health and vigour, as well as high calcium to aid in the translocation of other elements around the plant. High potassium is ideal to cope with summer stress and disease resistance.

Recommended rates 250 - 300kg/Ha.

For use on sports grounds and golf course fairways. The following products are consistent granule size with SGN345.

SURE GREEN GOLD

21.4%N, 1%P, 4.1%K, 15.1%S, 3%Fe

50% Readily Available and 50% Slow Release

The extremely high iron content forces excess chlorophyll resulting in a deep dark green appearance. Helps in the uptake of nitrogen. Low salt index fertiliser as it is sulphate of potash based.

Recommended rates 250 - 300kg/Ha.

SURE GREEN CASKADE

20.5%N, 1%P, 18%K, 4.4%S

25% Readily Available and 75% Slow Release

The higher slow release component reduces nitrogen loss in summer and produces slower steady growth for longer periods. Higher potassium increases water translocation and reduces summer stress.

Recommended rates 250 - 300kg/Ha.

SURE GREEN MAXX

23%N, 0%P, 8.4%K, 4.9%S, 2.4%Mg, 2.4%Fe, 0.86%Mn

10% Readily Available and 90% Slow Release

This is a premium slow release product with an exceptional analysis and high trace elements for deep green colour. Maxx contains the highest slow release component of the SURE Range, reducing nitrogen loss in summer and producing slow steady growth over the release period.

Recommended rates 250 - 300kg/Ha.

SURE GREEN SPRING HIGH N

20%N, 0%P, 7%K + 15%S, 2.1%Ca, 1.3%Mg

75% Readily Available and 25% Slow Release

Recommended after winter dormancy with release qualities to carry through to spring. High nitrogen, aided by calcium and magnesium promotes excellent growth. Low salt index fertiliser as it is sulphate of potash based. A more economical option for slow release coming into season.

Recommended rates 250 - 300kg/Ha.

SURE GREEN SUPA K

15%N, 0%P, 20%K, 13.3%S, 0.8%Mg, 0.63%Mn

65% Readily Available and 35% Slow Release

This high potassium and sulphate of potash based product is ideal to apply to all turf surfaces on a variety of soil types. Ensures quick response back from wear and summer heat stress. Good levels of trace elements produce excellent colour. The lower slow release component allows for a quicker turf response and steady supply of growth through the coated nitrogen.

Recommended rates 250 - 300kg/Ha.

SURE GREEN PLUS

8.8%N, 10%P, 19%K + 7%S, 0.02%Cu, 0.04%Zn

57% Readily Available and 43% Slow Release

80% sulphate of potash based with high potassium, high phosphorous and trace elements including high zinc. Ideal at renovations for energy production and new root development. Can be used as a pre plant-starter for turf. Promotes early stages of leaf growth.

Recommended rates are approx 300 - 400kg/Ha.

SURE GREEN ACTIVE

19%N, 2.2%P, 15%K, 4.1%S, 1.2%Mg, 0.3%Fe, 0.16%Mn, 0.02%Cu, 0.04%Zn

21% Readily Available and 79% Slow Release

This product is a good option for maintenance requirements and as a renovation fertiliser. High nitrogen in slow release form is a great fit leading into summer for longer, steady, sustained growth. It also helps to stabilise nitrogen through the hotter months to reduce nitrogen loss.

Recommended rates 250 - 300kg/Ha.

SURE GREEN SPRING STARTER

24.5%N, 2.2%P, 10.%K, 5%S

26% Readily Available and 74% Slow Release

The higher nitrogen component compared to Sure Green Active means there will be a degree of nitrogen release upfront and a much higher release of nitrogen over a longer period, ideal coming into spring and right through the season. Steady growth through the season change from AFL to cricket without having to reapply nitrogen. Spring Starter has a balanced phosphorous and potassium content ideal to support plant health through this period.

Recommended rates 250 - 300kg/Ha.

SURE GREEN ORGANIC

14.6%N, 5%P, 10.6%K + 5.4%S, 2.5%Ca, 0.32%Mg, 0.13%Fe, 0.13%Mn, 0.04%Cu, 0.02%Zn, 0.005%B, 0.005%Mo, 0.73%Si

48% Readily Available and 52% Slow Release

Ideal phosphorus levels for all situations on sandy soils with lower PRI. Good level of potassium and a wide array of trace elements support plant health and development. It is 20% organic through humates, blood & bone and zeolite.

- **Contains silicates** essential for energy production, vigour, yield and early root and shoot development. It assists plant processes such as photosynthesis, respiration, energy storage and transfer and cell division.
- **Added Humates** improve the fertility of the soil, increasing the conversion of plant available nutrients and stimulating beneficial microbial activity and root growth.
- **20% Organic** inputs help to restore soil biology to enhance longer term success of the soil profile. Organic based option for the management of sting nematode.
- **Compound Granulated Blend Premium** granules which contain all nutrients resulting in an even distribution when spreading.
Recommended rates 250 - 300kg/Ha.

APPLICATION RATES ARE A GUIDE ONLY

We recommend soil and plant tissue testing before any application. Rates are dependent on crop, climate, soil and management practices.

Contact your Baileys Area Manager for your individual requirements.

For use on sports grounds, golf and open spaces.

SURE GREEN SPRING 'N' AUTUMN

15.7%N, 3%P, 10%K + 15%S, 1.5%Fe, 1%Mn, 0.9%Mg

100% readily available macro and trace elements ideal for quick release through all seasons.

A well balanced analysis with good levels of nitrogen, phosphorous and potassium plus calcium and magnesium make Spring N Autumn a perfect renovation fertiliser. Low salt index fertiliser as it is sulphate of potash based. Contains higher levels of trace elements than Sure Green All Seasons to produce exceptional colour.

Recommended rates 250 - 300kg/Ha.

SURE GREEN ALL SEASONS

15%N, 2.2%P, 12.3%K + 14.6%S, 1.4%Ca, 1.2%Mg

100% readily available macro and trace elements ideal for quick response through all seasons.

A well balanced analysis with good levels of nitrogen, phosphorous and potassium plus calcium and magnesium for use as a renovation fertiliser, a fertiliser leading into summer or part of a maintenance program. A low salt index fertiliser as it is sulphate of potash based.

Recommended rates 250 - 300kg/Ha.
