

# New Grow It Local 4kg Range

## Low Odour, Organic Based Compound Granule

This unique product combines a slow release base of organic blood and bone with trace elements, soil amendment and bio-stimulants into the one compound granule. It not only feeds the garden with a complete range of nutrients, it also builds soil capacities, improves soil fertility and stimulates microbial activity. Baileys 4kg Grow It Local Range has been specifically developed for WA soils.

- Pots Garden & Flower 4kg**  
 For use across the entire garden. Ideal for potted plants, garden beds, shrubs and all flowering annuals and perennials.
- Veg, Tomato and Herb 4kg**  
 For healthy and luscious vegetables and herbs.  
 Improves pest and disease resistance and overall plant quality and yield.
- Fruit & Citrus 4kg**  
 High in magnesium and potassium for strong growth, rich green foliage and plump healthy fruit.
- Rose, Camellia and Azalea 4kg**  
 To optimise growth of roses and acid loving flowering plants. Promotes an abundance of bright blooms and rich dark foliage.
- Perfect Lawn 4kg**  
 For all turf varieties. Improves soil fertility and structure to promote healthy turf growth, root development and long lasting colour.
