BRILLIANCE[®] GRANULATED

MINIMUM GUARANTEED ANALYSIS W/W%

N	P	K	S	Ca	Fe	Mn
15.4	0	9.5	18.3	1.0	0.4	0.6

Brilliance[®] Granulated is a premium grade, phosphate free, compound fertiliser. Containing high nitrogen and potassium levels, plus trace elements, Brilliance[®] encourages vigorous growth, excellent colour and new root formation. It will maintain nutrition and replenish vital elements rapidly utilised in turfgrass. Brilliance[®] is ideal for application on all sporting grounds and complexes, high profile playing fields, golf courses, schools and domestic lawns.

Key Features

Compound Granule	Uniform nutrient distribution, even growth and reduced dust compared to blends.
Phosphate Free	Safe to use around rivers and waterways where eutrophication is a concern.
High Nitrogen	Replenish N easily leached on sandy profiles. Vital for plant cell metabolic processes including photosynthesis. Produced excellent growth and colour.
High Potassium	Replenish K easily leached on sandy profiles. Promotes strong plant cell membranes and improved tolerance to stress and disease.

- High potassium content promotes strong plant cell membranes, root formation, facilitates cell division and improved tolerance to stress and disease. Poorly developed roots are often a result of low potassium levels.
- Calcium contributes to overall turf health, and increases cation exchange capacity, allowing better uptake of other elements.
- Iron and manganese content aids nitrogen uptake and produces dark green colour.

FORMULATED FOR WA CONDITIONS

- Brilliance[®] contains high levels of essential turf nutrients for healthy growth, excellent colour and plant functioning.
- A high nitrogen component facilitates quick growth and green up, ideal for sporting grounds and turf farms where rapid results are required. Nitrogen is also key for the formation of amino acids and plant proteins. Deficiency results in poor growth and chlorotic discolouration.

AVAILABLE 20KG, BULK BAGS & BULK

APPLICATION CALENDAR *(best applied during growing season)*

Summer	Autumn	Winter	Spring

Application Rates

Kgs actual N/Ha	Kgs/100m ²	Kgs/Ha
30kg	1.9kg per 100 m ²	190kg/ha
40kg	2.5kg per 100 m ²	250kg/ha
50kg	3.15kg per 100 m ²	315kg/ha

Apply to dry area and irrigate after application.
If no irrigation, apply when rainfall is evident.
Consult your Baileys representative for further details.
