

3.1.1. Plus

14.1%N, 0.90%P, 8%K + 14.3%S, 0.75%Ca, 0.65%Mg, 0.35%Fe, 0.55%Mn plus Grosorb

PRODUCT DESCRIPTION

Baileys 3.1.1. Plus is a mini sized, fully granulated lawn fertiliser blended with Grosorb wetting agent. This balanced formula is designed for establishment of new lawns and lawn maintenance in hydrophobic (water repellent) soil conditions. The added benefit of Grosorb aids water penetration and moisture retention, enhancing the efficiency of the lawn food, reducing watering requirements and producing a healthy drought tolerant lawn. It is ideal for warmer months and Australian conditions.

BENEFITS

- ✓ Western Australian designed and manufactured product tailored to Australian conditions.
- ✓ Mini size granule for easy and even distribution and quick uptake, even on finer turf surfaces.
- ✓ Fully granulated to ensures all nutrients are incorporated into each granule for maximum nutrient delivery to your lawn.
- ✓ A complete macro and micro nutrient fertiliser for excellent results on high profile turf surfaces such as entertaining areas.
- ✓ Ideal for commercial applications on finer turf surfaces such as bowling, tennis, cricket, croquet and golf course greens.
- ✓ A Waterwise Approved and Smart Approved product. The only fertiliser in Australia to have this accreditation with proven water saving properties.

ACCREDITATIONS

Mini Size Granule
