

AUSTRALIAN NATIVE

21.0% N, 0.0% P, 19.0% K, 7.5% S

PHOSPHATE FREE PLANT FOOD

Baileys Australian Native Plant Food is a professional grade, phosphate free, slow release nursery and landscape fertiliser derived from polymer coated urea and polymer coated potassium sulphate.

- ✓ The advanced fertiliser coating technology ensures the precise release of nutrients.
- ✓ The constant gradual diffusion of nutrients through the coating is how the plant obtains its requirements.
- ✓ Baileys Australian Native Plant Food has a 5-6 month release longevity.
- ✓ Baileys Australian Native Plant Food is safe to used on all native plant species including the Proteacea family.

APPLICATION RATE

Topdress:

20-30 grams per square metre on landscape areas.

Incorporation:

3-5 kg per cubic metre

Potted plants:

- 3-5 grams per 140 mm pot
- 8-10 grams per 200 mm pot
- 28 grams per 300 mm pot

Due to the small granule size, Baileys Native Plant Food can be applied to 80 mm native tube stock as well. Use at a lower rate than the 140 mm pot size.

CAUTION

Nutrient can stain walkways and will need to be washed off prior to irrigation. Keep away from water sources such as ponds, pools etc.
