

BAILEYS Vitaplant Vineyards & Orchards

6%N, 1%P, 11%K, 0.1%Mg, 0.3%S + Trace Elements

PRODUCT DESCRIPTION

Vitaplant for Vineyards and Orchards is an organically enriched liquid fertiliser scientifically formulated to provide valuable nutrients during the growing season. This product is based on kelp extract and blended with essential plant nutrients nitrogen, phosphate and potassium to encourage strong plant growth without the risk of burning.

The addition of humectants (a naturally occurring wetting agent) ensures an even spread of product over the plant leaf area and encourages easy absorption into the root system through the soil. Unlike Baileys Vinebuilder for pre and post harvest application, this product is ideal for use all year round.

BENEFITS

- Balanced formula with trace elements.
- High potassium essential for quality flowers and fruit.
- High potassium to reduce moisture loss through summer.
- High potassium to prevent common diseases, downy and powdery mildew on grapevines.
- Both nitrogen and potassium are in a form of potassium nitrate.
- Valuable source of essential plant growth proteins and amino acids.
- Wetting agent added for better distribution and absorption.
- Easy to use and water soluble.

20lt, 200lt, 1000lt

(1000lt Purchases ONLY)

APPLICATION RATE ON TURF

CROP	RATE/HECTARE	MIN DILUTION RATE
Grapevines	4 - 6L	1:100 water
Citrus	3 - 4L	1:100 water
Orchards	2 - 4L	1:100 water

APPLICATION NOTES

- Shake well before decanting. Use as directed.
- One capful is approximately 15mls.
- Apply fertiliser regularly to younger and older fruiting trees to correct deficiencies.
- Apply in season between spring and autumn.

CAUTION

Nutrient can stain walkways and will need to be washed off prior to irrigation. Keep away from water sources such as ponds, pools etc
