

PRODUCT DESCRIPTION

Baileys Premium Potting mix is a quality growing media, designed to assist plant establishment and ensure vigorous and healthy growth in pots and containers. This professional blend of ingredients has been perfected over many years to deliver the optimal growing environment for a wide variety of plants. For this reason, Baileys Premium Potting Mix is the preferred choice of many professional growing.

BENEFITS

- **Is fully composted** - It's stable and won't strip nutrients from your plants to facilitate the breakdown of immature organic material. The composting process also ensures no weed seeds or plant pathogens come with the product.
- **Contains Polyon controlled release fertiliser** - Two types of CRF, a 3-4 month and an 8-9 month have been added to this mix to ensure the perfect balance of nutrient release as required.
- **Contains a quality wetting agent** - Grosorb® has been added to the mix to ensure good moisture penetration, even drainage and re-wettability.
- **Has optimal air-filled porosity and soil particle size** - Aged, finely sieved pine bark is incorporated into the mix to provide optimal structure and air space for plant establishment.
- **Contains Zeolite** - This porous volcanic rock improves structure, aeration and the nutrient holding capacity of the mix.
- **Contains Trace Elements** - All plant required nutrients are provided with trace amounts of iron, calcium, magnesium, boron, zinc, manganese, copper and molybdenum added to the mix.
- **Complies with Australian Standards 3743 for a Premium Grade Potting Mix.** At the time of manufacture the pH has been adjusted to a range of 5.3 - 6.5 to ensure optimal nutrient availability and uptake.

APPLICATIONS

Premium Potting Mix is suitable for use in hanging baskets, patio tubs, indoor and outdoor pots, planters and for repotting.

Applications range from vegetables, herbs, potted colour, shrubs, trees, citrus and fruit trees and most natives.

It is an excellent product for growing flowering summer and winter annuals such as: marigolds, calendulas, petunias, vincas, cineraria, primulas, pansies, violas, poyanthus, snapdragons and sweet pea to name but a few.

RATES

On average:

100mm pot = 0.5L, 130 - 150mm pot = 1L, 200mm pot = 4L,
250mm pot = 11L, 300mm pot = 19L, 360mm pot = 26L

PROVEN RESULTS

Controlled trialing has shown Baileys Premium Potting Mix delivers superior result. Plants show advanced, healthy growth compared to that found when using a budget grade potting media (top) and when trialed against two other premium brands. (bottom)

Top - Premium Potting Mix (left) vs. Budget Potting Media - parsley and pansy trials.

Bottom - Premium Potting Mix (left) vs. Two leading premium brands - parsley and pansy trials.

ACCREDITATIONS

SIZES AVAILABLE 1L bags, 50L bags, 1m³ bulka bag or bulk. □
