

PERFECT PADDOCKS PERENNIAL PASTURE MIX

PRODUCT DESCRIPTION

Perfect Paddocks Perennial Pasture Mix is a 2 in 1 product that combines a quality blend of NPK fertiliser and micronutrients with a mix of elite cultivar perennial grass seed. The 2 in 1 product will enable a quick and easy application of both seed and fertiliser to the paddock. Once established it will provide a top quality permanent forage for grazing animals.

PRODUCT ANALYSIS

18.8kg : 11.9% N, 1.9% P, 13.4% K

1.2kg Coated perennial pasture seed mix

- ⇒ 3 x Rhodes grasses
- ⇒ 1 x Giant Bermuda grass (Couch)
- ⇒ 1 x Kikuyu grass (Superstrike Coated Seed)

BENEFITS

- Can reduce or replace supplementary feeding by providing out of season green feed
- Transform tired and run down paddocks into productive and profitable pasture
- Can reduce the risk of soil erosion in summer by providing year round coverage
- Provides long term health benefits to animals

APPLICATION

- Each bag will sow and fertilise approximately 800m² - 1000m²
- Remove unwanted existing grass and weed cover.

- Cultivate lightly (down to 50mm maximum) to form a seed bed.
- Broadcast seed and fertiliser mix at the required rate.
- Rake lightly to cover.
- Lightly roll using a water-filled plastic roller or similar device.
- Fertilise 2-3 times per year to encourage growth.
- Should be irrigated regularly during summer to maintain growth and health.

APPLICATION CALENDAR

Sow between August and October on dry land, or August to February on irrigated land.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

STORAGE

Must be stored dry, cool and out of direct sunlight.

CAUTION

Nutrient can stain walkways and will need to be washed off prior to irrigation. Keep away from water sources such as ponds, pools etc.
