Balanced Nutrient

Enriched with essential nutrients, providing plants with the balanced nutrition they need to grow strong and healthy, ensuring vibrant flowers and robust vegetable crops.

Soil Structure

The organic content in Soil Matters Garden enhances soil texture, aeration, and drainage, promoting root development and creating an optimal growing environment for all plant types.

Nutrient Rich

Contains high levels of nutrients, which helps rejuvenate tired soils, promoting long-term soil fertility and sustainability in garden beds and landscaping projects.

Nutrient Availability

The inclusion of humic acids ensures that essential nutrients are more readily available to plants, improving growth rates and ensuring vibrant, healthy garden beds.

Application Rates

Contact your Bailey's Representative for further details.

- Apply annually or before planting new crops to maintain soil fertility and structure.
- This product is beneficial for sandy, clay, or nutrient-depleted soils, improving soil texture and nutrient content for better plant growth.
